WHEELER DENIES EVER GOT MONEY FOR PROTECTION

Admits That Crooks Mostly Came to Him When They Were in Trouble, but He Says He Had no Special "Pull" with Police—Thrills Run Round Courtroom When Mr. Biggar Puts Searching Questions—Wheeler Undergoes Gruelling Cross-Examination, but Preserves 'Calm Demeanor'—Once Appealed to Judge for Protection.

William Wheeler on the stand at the police investigation yesterday afternoon, denied all connection with any system of "protection" for disorderly houses and said he had never received money from any woman for that purpose. He maintained that his conversations with Seymour and Lancey on the question of houses of ill-fame were nothing more than friendly conversations and that he had no financial interest in the matter at all. His visit to the house of Carmen Daily, Wheeler explained as an effort to locate Carmen Daily's friend, Harry Smith, whom he understood had the diamonds which were stolen from him by gunmen.

O. M. Biggar, K.C., asked regarding Wheeler's assistance to John Martin, or Jew John, who escaped, and Harrison Kay, both of whom got away with their gambling outfits, and asked if he could explain his influence with the police. Wheeler said he could not explain why he should have any influence.

Twice during the examination Mr. Biggar crossed Wheeler of the witness. On one occasion Wheeler said that "diamonds are easy to dispose of as you might think." Like a flash came Mr. Biggar's question: "How did you know?" Wheeler replied that he had tried to dispose of his own and found it difficult to get as much as he wanted for them. On another occasion Wheeler said that he went away on May 27th, leaving \$100 with Frank Lewis of the Lewis Bros. Cafe on account of the bond he had entered into for Jew John.

"So you knew Jew John was going to jump his bond, because it was not till the 30th that he was arrested in Calgary?" queried Mr. Biggar, while another thrill went around the court. Wheeler said he left the money because he had given his bond and that he did not want the bond to be called for and it not be there. He left it there in case Williams ran short of money.

Despite the gruelling cross-examination Wheeler preserved a calm demeanor, only once he appealed to the judge for protection.

Police Court Clerk Sandilands produced the warrant and information against William Wheeler, dated June 9. He stated that another information "for unlawfully obtaining money" was laid, but no warrant was issued.

Mr. Biggar asked why these informations were laid, paying particular attention to the time.

Mr. Biggar handed the witness a letter which he said he recognized as a letter which was used as evidence against a man named Brown, charged with perjury. Witness said he understood the letter was found on Brown by Inspector Campbell. Brown was committed for trial and sentenced by the higher court. The letter was handed by Mr. Biggar, without being read, to Justice Scott.

Wheeler Recalled.

William Wheeler again went into the box. Mr. Biggar called his attention to the fact that he had previously denied visiting the place at Queen's avenue where the gambling paraphernalia was stored. Wheeler said he did not understand the question, that way.

Mr. Biggar: Do you understand now that those answers to these questions were untrue?—If you took it that way.

Who were the women who came and talked to you about police protection?—There was only one. A Mrs. Fair, who came to see him at Lewis' cafe.

So you had a reputation of being a "fixer" even before the investigation?—So it seemed that he thought so.

What other very much?—I had no conversation with Mr. Seymour in the 5th of June—I did not say there were several.

What did you tell this woman?—I told her I had nothing at all to do with it.

Why did you tell her that?—What else should I tell her? It was true.

Knew of Warrant.

What was the warrant about the "pull" you had with the police?—The first I heard of that was when I saw it in the Bulletin the next morning. I was told that nothing was to be done in regard to what I said.

What did you think was meant by that?—That nothing was to be put in the paper.

You heard that there was a warrant for your arrest?—Yes; word was left at the club.

Do you remember seeing me and suggesting that they were mistaken?—Yes.

And you telling me that you had it on first rate authority?—Yes.

What was that authority?—Someone telegraphed me from New York.

It was an anonymous communication?—Yes; they said it did not matter who it was.

You cannot tell me who was the first rate authority?—No.

Can you tell me if it was the news travelled so quickly to you—the warrant being served on half past 10 in the morning and you knowing between one and two?—No.

Saw Carmen Daily.

You know Carmen Daily?—Yes. And you remember going to her place with "George Barrett"?—Yes.

What did you go there for?—I went there to find out where this friend of hers, Harry Smith, lived.

Hagaron and Kearns got away with their gambling paraphernalia which you had undertaken to take care of. Witness: Very true in that case. You were able to give police protection?—No.

Who Was Joe?—Who was Joe with the big mit?—I don't know anything about that. You swear that you never used that expression?—Not to my knowledge. I want to know if you will swear you never used that expression?

Wheeler, turning to Justice Scott, said: I am on oath; it is necessary for me to swear this?

Mr. Biggar: Having regard to the conflict between what he says now and what he said last time I think he should swear.

Justice Scott: You say you have no recollection of using that expression; would you swear that you did not use it?—Witness: I have no recollection.

Mr. Biggar: You are reported to have said to Seymour that he could only have one-quarter of what you collected because "Joe is out with the big mit." Did you ever make to anyone a statement of that kind?—No; I never made such a statement.

Influence Inexplicable.

Did you ever get any money from Pay West?—No, sir.

From any person?—No, sir.

Certainly not for police protection?—No; nor for any other purpose.

What about Mignon Durand?—Never anything about her. I never saw the woman in my life.

You never got any money from any of these women?—No.

You cannot explain the extent of your influence with the police force?—If I had any, I cannot.

What was your connection with Mr. Williams?—Just as a friend.

Just by Chance.

It was just by chance that you were employed by the gambler to go to the chief of police and Mr. Williams was employed to go to the solicitor?—I was not employed by anybody.

There was nothing in it for you?—Not a nickel in it for me.

Relieving the influence which you might exercise on behalf of your friends?—That was it absolutely.

It was purely an accident that you and Mr. Williams were out of the city when something for the gamblers—it was not that you were a team in any way?—It was just an accident as far as I know.

It was just an accident that you were both on Jew John's bonds and that he got away?—Williams told me he was a friend of his and I went on his bonds.

It was just an accident that you "went good" for this gambling paraphernalia?—Nothing else.

Slight Accusation.

Did you know Seymour for long?—Oh, for some time.

He had excuse for repaying any great confidence in you?—No; nothing at all.

As a matter of fact your connection with him was so slight that you felt it improper to let that confidence be abused by letting that paraphernalia get away?—I only agreed that it would be there the next day.

And you took no precautions to see that it would be there the next day?—I knew that it was going to be there the next day.

The witness was allowed to stand down at this point, but was recalled.

Mr. Biggar stating that Mr. Clarke suggested further questioning which he thought it was right witness be asked.

Mr. Biggar: You had no personal acquaintance with Mr. Carpenter?—None whatever.

You had no personal acquaintance with the Mayor?—No.

Mr. Armstrong or Mr. Short?—I don't think either of them knew me. I never spoke to either one of them.

If you had been suggested to have been the "official fixer" for some years it would not be surprising your connection with the heads of the administration?—No, I would have had to do it through somebody else.

Did you have any personal acquaintance with the detectives on the force prior to Lancey's last regime?—The only man I knew of was Jim Coleman.

Time that I was laid up was Mr. Coleman. There would be a lot that I spoke to and did not know his name.

Are Dudley and Hagaron still in the city?—I don't scarcely think they are.

Jew John's Bond.

Did you get your money back from Jew John?—I had not got it yet.

You paid that \$150 out of your own funds?—Yes. I went away on the 15th and I left the money with Frank Lewis.

So you knew that Jew John was going to skip his bail?—I think he was in town at the time.

You anticipated Lancey's order that bond?—If I had I would have left it with Robert Williams.

Why did you leave it with Frank Lewis?—Because he is a man I trust and I told him that if Bob needed it he could go and get it from him.

Mr. Biggar (ironically)—Thank you very much. (Laughter.)

"Went Not Last Long."

Detective Urush was next called. In reply to Mr. Biggar's question as to why he had not reported Seymour's detention of duty to Seymour's superior officer witness replied: "I would not have reported it." (Laughter.)

Justice Scott said he agreed with witness that discipline could not be enforced by inferior officers were encouraged to carry laws of their superiors.

Justifiable Johnson, who took part in the first street gambling raid, also gave evidence.

LIBERALS ELECT TWO CANDIDATES TO LEGISLATURE

North Qu'Appelle, Historic Conservative Riding Goes Grit by 304 Majority.

ROSTHERN MAJORITY IS LARGER THAN 1912

Betting Indicates That Tories Will Lose Many Seats in Ontario.

Regina, June 26.—In the provincial by-election in North Qu'Appelle, necessitated by the resignation of J. A. McDonald, conservative, polling yesterday gave J. G. Gardiner, liberal, a majority of 304 over W. E. Reid, conservative, a gain for the Scott government.

The liberals had a majority in 15 out of 22 polls, and the conservatives in eight. At the last general election the conservative majority was 45.

Western, Sask. June 26.—W. B. Macdonald, liberal, yesterday elected to the Saskatchewan provincial legislature by a majority of 254 over George Hudson, the conservative candidate.

Mr. Hudson polled 1,145 votes, and Mr. Braden 525. The by-election was necessitated by the resignation of W. J. Hanna's stronghold, Saskia, yesterday, and was given a good reception.

Considering the deep interest manifested in the present election contest there has been very little betting here. At the Alberca Club, where the members are asking odds that the liberals will have 25 seats in the next legislature. The present standing is conservative 58, liberal 20, labor 1.

N. W. Howell, liberal leader, invaded W. J. Hanna's stronghold, Saskia, yesterday, and was given a good reception.

Considering the deep interest manifested in the present election contest there has been very little betting here. At the Alberca Club, where the members are asking odds that the liberals will have 25 seats in the next legislature. The present standing is conservative 58, liberal 20, labor 1.

GOVERNMENT AND C.N.R. MAGNATES NOT YET AGREED

Stated Serious Hitch Has Developed Regarding Issue of Railway's Bonds.

MACKENZIE BORROWING IN NEW YORK MARKET

Not Desired That Whole Amount Be Placed in London at Once.

Ottawa, June 26.—The Ottawa Free Press says: "It is stated that the government is insisting upon certain conditions being placed in the mortgage as the whole amount of the issue shall be floated at the present, when its own most recent loan has not yet been taken up by the public in its entirety."

"It is further stated that the government desires to place certain conditions in the mortgage as the whole amount of the issue shall be floated at the present, when its own most recent loan has not yet been taken up by the public in its entirety."

"As a consequence of this hitch it is understood that Sir William Mackenzie has been borrowing on his own account in the New York market in order to tide over the situation until the matter has been finally settled."

Indifferent to Fate.

Macleod, Alton, June 26.—The three Calgary Russians, Bokoff, Smith and Mandel, convicted of the murder of John William Alkshay, are at present behaving in a very quiet manner. Mandel shows signs of feeling his situation acutely, but the other two men are apparently indifferent to their fate and treat the matter in an off-hand way.

Wife Beater Is Lashed.

Macleod, Alton, June 26.—An exemplary lesson to wife beater was given at the Macleod barbers yesterday afternoon, when William Barrow of Calgary, convicted of assaulting his wife, was given fifteen lashes.

MacLeod's punishment fairly well. This is the first time the lash being used in these barracks.

"I Tell You—These 'Holeproofs' Are Wonderful Socks"

Go to a furnishing, clothing or department store and see the original guaranteed hose—famous Holeproof Hosiery. Note its texture and style. Buy six pairs of Holeproof and begin to know them, as a million wearers do. Buy them today. They will last six months or longer. If they wear out, it's a thread breakage—you get new pairs free.

We pay an average of 74c per pound for the yarn in Holeproof. Common yarn costs but 32c. But ours is the finest to be had. It means soft flexibility. The wear you get in these stockings or socks has nothing to do with the weight of the yarn. Try the merits or the sheers weights in cotton.

Holeproof dealers now have the new colors in many weights. Merino, Cotton and Silk. Go see them.

Holeproof Hosiery
FOR MEN, WOMEN AND CHILDREN
HOLEPROOF HOSIERY CO. OF CANADA, Ltd., London, Ont.

SAYS DETECTIVE CASHED BLANCHE HARPOOL'S CHECK

(Continued.)

A new "stunt" is being employed by Mr. Higgins to keep track of the statements made by the numerous witnesses. This is a card index system. Mr. Higgins has a drawer full of cards before him on the solicitors' table, all the cards referring to special features in the voluminous typewritten evidence. In this way he can turn up in a second any important statement by any of the witnesses.

Detective Kronging
Detective Charles E. Kronging was the first witness called this morning. Mr. Kronging has had charge of the detective force in the city of Edmonton since June 1. He stated that he first joined the Edmonton force in September of last year, and resigned to become special agent of the G. T. I. He had previously been detective sergeant of the Lethbridge city police force.

Warrant Disappeared
Regarding Jew John witness said a bench warrant was issued and it was taken by someone off Detective Broadbent's desk.

Alderman Clarke objected to any questions being asked by Mr. Higgins relating to things which happened after the demand for the investigation was made.

Witness spoke about the woman Carmen Daily making a statement to him that she had been asked for protection money by William Wheeler. He afterwards visited May's house. He saw the diamonds and the things made by both Daily and Smith. The declarations were made separately by each woman and as they corresponded so exactly, he had no doubt that they were true. He had brought Wheeler to the court on a specific date. This was sufficient evidence for him to arrest Wheeler. At the time that the statements were sworn, Wheeler was in Winnipeg and he had the information on the day Wheeler returned.

Word Leaked Out
To whom did you communicate information that you had had information? To Mr. Booth and Mr. Smith, Mr. Higgins. Mr. Wheeler got information of the fact before the warrant was issued. Can you explain that? "I don't think I can. There should be no leakage."

Witness said that they were usually shadowed while making raids and for protection he had the shadowers shadowed and found a man had been in Carmen Daily's house with the police party were there. He thought that this man might have told Wheeler that they were trying to get evidence on him.

Women Disappeared
Mr. Higgins: The man was laid at 10:30 and the warrant issued about 2 o'clock and Wheeler knew between those times. Can you explain that? "I cannot say who would have told him."

Witness said he told the morality department to watch the women Daily and Smith. Inspector Burbeck later told him that they had left. He turned to the chiefs of police and to Mr. Gary, Wetaskiwin, Regina and Saskatoon, but got no answer.

Wheeler was out on bail for about two days before those women went away?—About that time.

Would Surprise Them.
Witness said that Wheeler, when arrested, said that something would come out about which received the protection which would surprise them. Regarding the alleged "framing" with Myrtle Collins, to put a story of demanding money on him, witness said that he had been an opponent of the Wheeler gang ever since he came to the city. He had fought with Frank and William. The man who told ex-deputy chief Wright that Myrtle Collins said he (Kronging) had demanded money for protection, had been allowed to sell liquor without the city, and witness got him convicted and fined \$200.

Keep Politics Out.
Ald. Clarke questioned witness regarding his visits to these women with a reporter. Witness said he told the reporter he could go along with him, provided he kept politics out.

Mr. Clarke: You took a Bulletin reporter with you to keep politics out?—I allowed him to go out with me to see that we were carrying out our work.

Did you ever do that before?—I have lots of times done it in other cities. I have taken Mr. Manning there on a secret work such as this. It is customary to take a reporter with you to keep politics out. If we were out investigating and I thought the public ought to know what was going on.

Check For \$120.
Nate Coddon was next called and was questioned as to playing various games.

Mr. Ewing: Do you remember Blanche Harpool having a check for \$120?—Witness: That was my own check. My lawyer came up to me at the King Edward hotel and wanted to get evidence against Coleman before this investigation.

Justice Scott: You did not answer the question. Who made that check?—Witness: That was my own check. I gave it to Fred Marony in a game. Mr. Ewing: Was this a game played?—Castle Hotel.

Do you know what he did with that check? I heard that he went to Blanche Harpool's place and spent it. Afterwards I heard he wanted his money back.

check for her. My account was at the Jasper avenue branch. Had Coleman any interest in it? He said he had not.

Did he want to fix it up? I just changed the branch from First street to Jasper avenue. After Mr. Booth called up I went down and tore up the check because I did not want to get mixed up in this investigation.

Why? Because I did not see why I should. Have you any information to give us? No information whatever.

Are you sure Coleman did not say that \$120 out of it belonged to him? I don't remember.

Was Coleman's name on that check? Yes. It was marked "William Coleman, city detective."

Did you discuss that with him? No. Did you ask him why his name was on it? I suppose it would be; he caught it.

Tore Check Up.
Did you look at the check before you tore it up? Yes.

By whom was it endorsed besides Coleman? Fred Marony was one. Was Blanche Harpool's name on it? I don't remember.

Will you take a little trouble to remember? I tore it up quick; and I don't remember any information.

Have you seen Coleman since? Yes. Did he ever mention that check? I don't remember.

I would give the evidence that I knew. **Business Proposition.**
Witness asked that Coleman said the check was a "business proposition."

Mr. Ewing: Is it your idea of a business proposition for a police detective to cash a check?—Yes, I think so.

Did Coleman say anything about it? Yes. I think he said: "Did he tell you what he did with the proceeds?"

Who told you to tear up the check?—By my own judgment.

Do you mean that nobody told you?—Nobody that I remember. I would not swear that he did not tell me to tear it up. Did you see Coleman before you tore it up?—No.

"Frier for Years"
Thomas Tipton was next called. He related statements made by Wheeler and Coleman to him, and he had himself and Captain Robinson, of the south side police, and Charles Penland, of the north side police.

Mr. Tipton said: "Wheeler said he was official fixer for the police and that he had no reason to do him a dirty deal."

He swore that the hold-up was a frame up. He mentioned specific instances of "fixing things for police."

"Sore at Police"
Mr. Higgins: Did he say for how long he had been in town? He said he had had the same position in Spokane. He did some fixing down there and then where he got acquainted with these men. People came to him with letters of introduction from other crooks in the States.

Witness said that he was up so that they could work. He spoke of two or three safe blowings, and hold up jobs and that the men were still in town and could be got if they were wanted. I understood him to be referring to the police. He seemed to think that the police knew where the diamonds were. He said that a plain clothes man had shadowed him and told him that if he kept his mouth shut and there was no prosecution he could have them.

Did he say the crooks ought to have shown him some consideration?—He seemed to think that the consideration should have come from the police.

"Go Between" Alleged.
Witness stated further that Wheeler was the "go between" between the crooks and the police for some years, and he thought the police were constant of where the diamonds were, and were doing nothing to get them for him.

Lancey very much and I consider him a good friend of mine. You knew the chief of police so well that it was worth while other merchants coming to ask your intervention when they wanted police assistance?—Not quite that bad.

Was Mr. Lancey's office often made a reception room for people from out of town?—I think so; people would quite frequently go down and see him. In reply to Justice Scott witness said he was born in Quebec, and had lived a number of years in Wisconsin.

Knew What They Were.
Chevier said that Dr. W. D. Ferris owned the building in which the Nannay, Wine and Spirit Co. did business. The company had the letting of the whole premises.

Mr. Higgins: Did you know that you were renting the upstairs to prostitutes?—We knew they were prostitutes. We knew they were prostitutes for three months?—Blanche Harpool was only there two weeks. Mrs. Edwood was there six weeks.

Witness said that the upstairs had not been occupied since Mrs. Edwood left.

Mr. Ewing: Another member of the Nannay Wine and Spirit Co. said that there was a lock on the door to the upstairs portion of the premises until after Mrs. Edwood left, so far as he knew.

William Girvin.
William Girvin, of the Grand Veil hotel, was called, and Mr. Higgins remarked: "Your license was taken away for selling after hours." Witness said that no reason was given why his license was suspended.

Ald. Clarke objected to Mr. Higgins' statement, stating that he had been selling in the case and no charge was made against Mr. Girvin and such a statement would prejudice him in his business.

Girvin stated that he had known Mrs. Morton for about two years, and that she had been a lock on the door to the upstairs portion of the premises until after Mrs. Edwood left, so far as he knew.

Mr. Higgins: You knew she wanted to get a large house of prostitution?—No.

Look No Money.
Mr. Higgins: Mrs. Morton did not seem to have been under any misunderstanding as to the purpose the house was for.

Witness said Mrs. Morton gave him the money to make the first payment on the house and he paid to Mrs. Edwood on his own check. He denied that there was a message sent to Joe Clarke in which she said to Mrs. Edwood to "come home as Mrs. Morton is here." He did not know of any such message and thought Mrs. Bell must have been mistaken.

Mr. Higgins: It has been suggested that you went to Blanche Harpool or Coleman and asked them to help you with money for protection?—It is an absolute lie.

The court then adjourned for lunch.

A NEW FACTOR IN ALBERTA
COAL MINING

It is announced that an investigation into the causes of the Hillcrest Mine disaster will be made by Judge Carpenter, who has been appointed to that task by order-in-council of the Alberta government. It is only to be expected that the government will do all within its power to discover the nature of the circumstances which caused nearly two hundred men to be blown into eternity without a moment's warning.

From past experience of mine disasters in the great coal producing centres of the world one would expect that it will be the rare exception if in this case the cause of the disaster can be established beyond doubt. By the very nature of such catastrophes, they destroy the evidence which would give the clue to their cause. In this case a number of men escaped, but it is most likely that the explosion originated in a part of the mine from which none of the workmen returned alive to tell the tale.

Such inquiries, however, always produce a lot of useful theories and usually lead to greater precautions being taken to reduce danger to a minimum. Only last year the Alberta government passed a new Mines Act, which contained the embodiment of the report of the commission of experts which inquired into the causes of the Belle Vue Mine disaster—the previous largest accident that has happened in the history of the coal industry in this province. The new Mines Act came into operation a year ago and it provided regulations which represented the combined wisdom of mine workers, managers and government experts.

The investigation may reveal that there was negligence on some one's part. It is safe to say, however, that in coal mining the best possible regulations may be carried out to the letter and still accidents occur. In the bowels of the earth men are dealing with forces which are ever on the alert, watchful, and of enormous power. At any time these forces are liable to overwhelm the men who toil for the "black diamonds."

Coal dust has not been such a serious feature in the mining industry of this country as in the older mines of Great Britain, Europe and America, where the mines have got to an enormous depth and where ventilation is a very difficult problem. Most of the shallow mines in the lignite fields of Alberta are too moist to originate much coal dust, but the coal dust is a feature which will have to be seriously reckoned with in the mines of that region. By old miners coal dust is more dreaded than gas, because gas is more easily detected and more easily dealt with by ventilating the gassy places of the mine. The minute floating particles of coal in the air of the mine are so much gun powder in suspension, ready at any moment to explode with shattering force.

It appears that the authorities did everything in their power in this instance to render quick aid to the survivors and the finely equipped government rescue car was at the scene of the disaster within forty-five minutes of its occurrence.

WHAT WILL THE UNITED STATES DO?

If the mediation conference at Niagara Falls fails, what is the United States going to do? Whatever it may do it will find itself in an embarrassing position. One question is what will it do about Vera Cruz? Will it evacuate the port and acknowledge itself defeated or will it go to war with Huerta? Will it take sides with Villa or Carranza?

Failure of mediation under existing conditions will not leave the United States in an enviable light before the world, and especially will it weaken its influence with the South American states. Huerta has cleverly adopted a policy of conciliation and is still pretending that he wants the conference to continue. He has conceded every non-essential point demanded by the United States. But the United States has appeared persistently as a special pleader for the Constitutionalists, and thus stands as opposed to every feasible scheme for the settlement of the troubles between itself and Huerta. As a result nothing has been settled.

In Northern Mexico the question is whether Carranza and Villa are really at odds. If they are, they have strengthened Huerta's position. His troops are reported to have had a decided advantage at Zacatecas and his gunboats are supposed to have sunk the one Constitutional vessel. The division between Carranza and Villa may work Huerta's salvation. Carranza never appeared to be doing a great deal until he was joined by Villa. By separating from him he is helping Huerta. The proposition that Huerta and Carranza delegates decide upon a president, is not going to do much for the Constitutionalists, and that will not please the United States. Again, what is the United States going to do?

MAKE THE LION ROAR ON DOMINION DAY.

Canada's observance of her national holiday appears each year more and more to assume decidedly tame proportions. Something is radically wrong somewhere. Just what that something is, it should be up to us as Canadians to bestir ourselves and find out. True, celebrations are participated in more or less on the anniversary of our confederation, but they are chiefly of an extremely pronounced mild type.

Edmonton, in common with all other Canadian cities, appears to be sorrowfully lacking in outward demonstration of real patriotic spirit in this respect. The mere fact of a ball game and a program of athletic sports, such as will mark the First of July in this city, is not enough. Our American neighbors to the south fairly make the eagle scream on the Fourth, until it is heard in the four quarters of the globe. Is it not nearly time that Canada woke up? Let every citizen take hold and make a real live Dominion Day, one upon which may be built the foundation of a nation, to be handed down to the generations to come. Let us have fireworks, speech-making and what not, until the lion's roar may be heard loud and loud, instead of the semblance of lukewarm enthusiasm, that borders close on the quiet and repose of the Sabbath, and such as is now borne and is characteristic of the natal day of our fair Dominion.

CAN'T BEAT "TIZ" WHEN FEET HURT

"TIZ" for sore, tired, puffed-up, sweaty, calloused feet or corns.

You can be happy-footed just like me. Use "TIZ" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "TIZ" and only "TIZ" takes the pain and soreness out of corns, calluses and bunions. As soon as you put your feet in a "TIZ" bath, you just feel the tingling sensation. How good your poor, aching feet feel. They want to dance for joy. "TIZ" is grand. "TIZ" instantly draws out all the poisonous matter which puts your feet and calluses sored, itched, aching, swollen, smelly feet. Get a 25 cent box of "TIZ" at any drug store or department store. Get instant foot relief. Laugh at foot aches who complain. Because your feet are never, never going to bother or make you limp any more.

EXHIBITS FROM CANADA POPULAR AT U.S. FAIRS

Antagonistic Sentiment That Once Prevailed Against Them is Dying Out.

GOVERNMENT TO SHOW IN SEVERAL STATES Immigration Not As Large This Year, But Weather Class Are Coming In.

Ottawa, June 26.—Canadian exhibits are wanted at the American fairs this year. Mr. W. J. White, who looks after American immigration for the Canadian government, reports that there has been a change of sentiment across the line in regard to displays by Canada. For several years there had been a growing antagonism to the attractive displays made by the Canadian immigration department at state exhibitions. They attracted attention and took people from the United States to Canada.

The American real estate men raised objections to the result was that in several states, including New York, Illinois and Minnesota, space was refused to Canada. But the people missed the Canadian show and the management of the fairs have come to the conclusion that they cannot do without this attraction. Therefore Syracuse, N. Y. and Springfield, Ill. have removed the embargo and have invited Canada to make displays this year. In addition there have been invitations from an unusually large number of local fairs.

Mr. White says that while there has been a falling off in the number of United States this year, those who have come brought more wealth with them than any who arrived in the past. He also says that there are practically no people moving from Western Canada to the United States.

The opening up for settlement of a big Montana Indian reservation this summer is likely to result in a movement of immigration from the north for some time.

The British Columbia labor commission has recommended a Saturday half-holiday for all stores.

DOAN'S KIDNEY PILLS
Are The Original Pill For The Cure Of Backache, Lame Back, Weak Back Or Any Other Kidney Trouble.

The fact that Doan's Kidney Pills are the original Kidney Pills has not prevented the placing of other preparations in pill form upon the market under the name Kidney Pills. It is necessary, therefore, that all wishing to secure the curative effects which have made Doan's Kidney Pills the standard remedy for all kidney troubles should see that the trade mark, the Maple Leaf, appears on the wrapper. Without this trade mark you are not getting the genuine Kidney Pills as originally placed before the people by Dr. James C. Doan, as shown by the following declaration:

DOAN OF CANADA.
PROVERB OF OMAHA.
To Wit:

In the matter of Doan's Kidney Pills, I, James Doan, of Kingsville, in the County of Essex, Druggist, do solemnly declare that Doan's Kidney Pills were first manufactured and sold by me on the 14th day of February, A.D. 1885. And I make this solemn declaration conscientiously believing the same to be true, and knowing it to be of the same force and effect as if made under oath today. Witness my hand and the seal of the County of "The Canada Empire Act, 1893."

Declared before me at Kingsville, in the County of Essex, this 27th day of July, A.D. 1914.
W. A. Smith, A Commissioner, etc.
Price, 60c a box, or 3 for \$1.25, at all druggists or mailed direct on receipt of the P. T. Maltburn Co., Limited, Toronto, Ont.

The Adventures of Kathlyn

By Harold McGrath.

SYNOPSIS OF PREVIOUS CHAPTERS.

Kathlyn Hare, believing her father, Col. Hare, in peril, has summoned her, leaves her home in California to go to him in Alaska. Kathlyn, pretending to be the throne of that principality, has imprisoned the colonel, named by the title king as his heir, because he fears the American may seize his royal rights. Upon her arrival in Alaska Kathlyn is informed by Umballah that her father is dead and that she is the queen. An elaborate funeral is arranged, the central figure of which is Kathlyn, protesting and grief-stricken. When the crown is placed upon her head Kathlyn announces that she is to be married to the man she loves, but her refusal infuriates her father's royal advisers. She has made a strong appeal to the people to support her, but because the young queen is not conversant with the laws of the state she will be given seven days to decide.

When Kathlyn refuses, at the expiration of the week of grace, her refusal to marry Umballah has serious results from the supreme tribunal that she is to undergo on the eighth day with wild beasts. If she survives she is to be permitted to rule without hindrance. Through the pluck and resourcefulness of John Bruce, an American and fellow passenger on the boat which brought Kathlyn to Alaska, and who has come to the rescue of the queen, she escapes from the two officials. With Bruce she flies from Alaska. The elephant which carries her becomes frightened and runs away, leaving her from the back of the party. After a ride filled with peril she takes refuge in a ruined temple. The holy men and villagers, believing that she is an ancient priestess risen from the tomb, allow her to remain, as the guardian of the sacred fire. But Kathlyn's heart is also the shade of a lion, and she is forced to flee from it with the savage beast in pursuit. She escapes and finds a safe refuge in the jungle, only to fall into the hands of a band of Alaskan Indians, who bring her to Alaska to the public mart. She is sold to Umballah as a fitting bride for his massive, throws her into the dungeon with Bruce and his friends effect the release of Kathlyn and the colonel. Umballah attempts to measure them is unsuccessful, and the fugitives are given shelter in the place of Raja Khan. The same night the sacred white elephant, the Khan's most prized possession, is slain.

Supplied with canoes and servants by that hostile tribe, the party endeavours to reach the coast, but are overpowered by a band of Indians, and the conqueror results in the colonel being delivered to Umballah. Kathlyn, who had been taken from her captors and returned to Alaska, where she is really a prisoner, it is intended to marry her to the son of the chief. She escapes from her captors and returns to the place where she had taken refuge. She is free and enters the burning room, throwing the entire contents of the chest.

(Copyright 1914; By Harold McGrath.)

CHAPTER XV.—Continued.

"Kil," said her father, "I couldn't help it. I can't think quickly any more. I am like a man in a nightmare. I've been down to hell, and I can't just yet realize that I am out of it. I'm sorry."

"Poor dad!" Kathlyn pressed him in her arms, while Bruce nodded enthusiastically but approvingly. By and by they drew aside the curtains. Kathlyn saw here and there objects which recalled her escape from her captors and return to Alaska, where she is really a prisoner. It is intended to marry her to the son of the chief. She escapes from her captors and returns to the place where she had taken refuge. She is free and enters the burning room, throwing the entire contents of the chest.

"One thing is forever," said Bruce, "When Umballah returns it will be to fight. He will not be able to avoid it now. I shouldn't mind going back with him. Ahmed, what is the strange hold Umballah has over the actions of the Council of Three? They always appear to be afraid of him."

"Ah, Sahib," said Ahmed, resting his hand on the shoulder of his mount, "there is said to be another prisoner in the palace prison. Lal Singh knows, I believe."

"What's your idea?" "Sahib, when I put you all safe over the frontier I am coming back to Alaska and find out what is going on. All Ahmed would say regarding the subject."

"I'll wager he knows," whispered Bruce. "But who can't it be? Another poor devil of a white man? Yet you said a white man influence the actions of the Council?" The colonel spoke irritably.

"Look!" from Kathlyn. "There is one of those wonderful trees which are the emblem of the Empire. The attention to the tree merely to cause a diversion. She wanted to keep her father's throne away from her. And when she journeyed on into the sunset, into twilight, into the bright, starry night."

Back in the city the panic was already being forgotten as a thing of the past. The leopards were back at their patrolling, the high officials and dignitaries, together with the unsuccessful candidates, had gone their several ways. Umballah alone paced the hall, well satisfied with the events of the day, barring the disturbance caused by the escape of the queen. His captain entered and saluted.

"Highness, a mahout has news." "News?" "Of what?" "He claims that he saw the king's turban in a herd which passed the night gate about four hours ago."

"That is not possible," replied Umballah. "I told him that the king was in his chamber."

"So he is. Wait! I will go myself and see," all at once vaguely perturbed. He was back in a very short time, furious. "It is true! Woe to those who permitted him escape."

"Highness, the escape of the leopards and the confusion which followed." "By all the Gods of Hind, and was you who left the door open? You opened it for me to pass out first. Summon the council. Off with you and give this handful of silver to the only man who has sense enough to leave his eyes. Here Sahib, and I will follow him into the very house of the British Raj. Guards and elephants! And the tribe to be made of her? Look and see. Nay, I will go with you."

Umballah found an empty chamber, the future queen of men. More, he found one of the women of the zenana—his favorite—bound and gagged with handkerchiefs. Quickly he freed her.

(To be continued tomorrow.)

YOUR DOLLARS

are what concern YOU most. Next to having plenty of them the best policy is to get the most for those you have. That is why you are interested in Shugarmans' Squeezed-Out Sale of Men's Wear. Tomorrow is the last day, and there is going to be something doing every minute. The store has been ransacked, the entire stock rounded up and branded with irresistible prices. If you are interested in big values, if you would hitch extra cents to your dollars, if you wish to realize the limit in bargains, get a beeline on Shugarmans' tomorrow, where the biggest kilter-kelter in men's wear ever seen in Edmonton will take place. You can bank on it tomorrow is going to be some day for the buying public.

H. H. Stevens, M.P., and Superintendent Reid Would Have Re-shipped Them.

C.P.R. WANTED \$15,000 TO TAKE HINDUS BACK Government Would Not Consent to Scheme Which Was Called Off.

Vancouver, June 26.—A special court of inquiry to hear a test case from among the Hindus of the Komagata Maru was held yesterday afternoon. A decision was given that he should be deported. This decision will be formally taken before a supreme court judge on habeas corpus, a dismissal asked for in order that the opinion of the British Columbia court of appeal may be obtained as quickly as possible. This test case scheme does not preclude the government from fighting the landing of every man aboard the Komagata Maru separately no matter what decision the court of appeal gives.

It was learned yesterday that H. H. Stevens, M. P., and Immigration Superintendent Reid had planned to shanghai all the Hindus aboard the Komagata Maru this morning and ship them out to the Empire of India. Examination about the Hindu ship during the last few days has shown that 40 per cent. of the Hindus are absolutely penniless. Not one in five has a dollar to his name.

Humors of what is taking place on the Komagata Maru reach the shore daily. The latest of these is that the Hindu, incensed by the statement of Chief Smith, their leader, laid plans to do him harm if not to kill him. Gurdit got wind of the plot in some way and now goes about the decks as little as possible. The general opinion is that the Hindus will not be permitted to land.

Big Camp Predicted. Regina, June 26.—After spending two and a half months in the Beaver Lake gold mining country, D. A. Hall, member of the legislative assembly for Cumberland, arrived in Regina last evening for a short visit. "I am convinced," he said, "that in the very near future one of the largest mining camps on the continent will be established in the Beaver Lake district."

Chocolate Plant Burned. New Westminster, June 26.—The Pacific Chocolate company's plant was completely destroyed by fire last night. The plant was one of the finest of the kind on the Pacific coast. The total damage is estimated at \$75,000.

Hog Cholera at Regina. Regina, June 26.—Hog cholera has broken out just west of the city limits and five herds have been slaughtered in an effort to eradicate the disease. It is feared the outbreak will extend further into the province.

Alliance Oil Co. LIMITED

have acquired a lease on the anti-dip between the Monarch and the Dingman wells, where they purpose shortly commencing drilling.

The remainder of their 2640-acre holdings is close to the Nakamun. One section being only about a mile from where they are drilling.

There are some shares of the first issue still available at 10c per share—Par value \$1.00.

DALLAS LADIES' TROPHY GOES TO EDMONTON CLUB

Local Women Win Signal Honor for Association at Advertising Convention.

MINNEAPOLIS AND NEW YORK OTHER WINNERS

Meeting, Largest Ever Held, Dispenses With Much Business at Close.

Toronto, June 26.—The tenth annual convention of what is henceforth to be known as the "Associated Advertising Clubs of the World," came to a close yesterday afternoon at the exhibition grounds. It was the largest convention by several hundreds of any hitherto held by the association.

At a general session, held in the Transfiguration building, the trophies were presented. The Boston Truth trophy was won by the Minneapolis Advertising Forum; the Dallas Ladies' trophy, for the club sending the most ladies to the convention, was carried off by the Edmonton club which had 50 ladies in the party, and the Boston Milne trophy went to the New York club.

Several resolutions were passed, namely, allowing the formation of women's auxiliaries, condemnation of the advertising of a recent piano sale in the United States, and expressing appreciation of the work done by the Toronto Ad club in connection with the convention, and the reception of the delegates by the city. To this latter resolution President Clark, of the Toronto club, replied. Senator Jeffery also delivered an address.

Representative F. C. Higham, of London, Eng., presented to the Toronto club a silver hour, a banner from the sales manager of the London association, a banner from the Publicity club of London, and a magnificent Union Jack from the British Ad club. He also presented to the association a cup and medal. The cup will be awarded for the most constructive paper containing the fewest number of words delivered at each annual convention and will be the property of the club to which the successful speaker belongs. The individual delivering the paper will receive the medal. The prizes are to be known as the Higham cup and the Higham medal.

The ratification of the choice of Chicago for the next convention was made unanimous, a decision from San Francisco, which put up such a vigorous fight for the honor, moving the resolution.

Officers were then elected. The officers of the treasurer and secretary being combined. President Woodhead, Vice-president Cherry, and Secretary Thoren were all re-elected. The convention ratified the selection by the local clubs of the representatives on the executive.

Pledges of fealty to the association followed, after which speeches were delivered by Senator Young, of Des Moines, Iowa; J. Cappel, Major O'Keefe, Baltimore, and others.

On behalf of the ladies of Toronto, Mrs. Hocken, wife of the mayor, presented a new gavel to President Woodhead.

The convention concluded with the singing by the entire meeting of the "Ode to Truth."

Sherwood Heads Police.

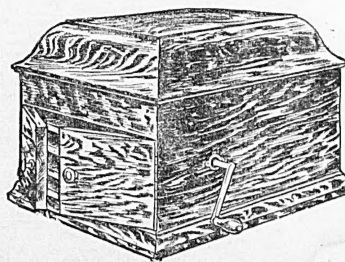

Winnipeg, June 26.—Col. A. P. Sherwood, head of the Dominion police force, was appointed president for the ensuing year at the tenth annual convention of the "Chief Constables' association of Canada," at the sittings which were closed yesterday.

Other officers elected were: Deputy Cuddy, Calgary, vice-president; Deputy Chief Stark, Toronto, secretary-treasurer.

PLAYGROUNDS FOR THE CHILDREN TO OPEN ON JULY 2

All Boys and Girls in the City Will Be Well Provided for in Sports.

MAN AND WOMAN WILL BE IN CHARGE EACH

Supervisors Will Look After Children and See They All Have Good Time.

On Thursday, July 2, an event of interest to all the boys and girls in this city will take place at the McKay Avenue and King Edward school grounds. This will be the opening of the supervised playgrounds for the summer holidays.

On these grounds there will be placed apparatus including swings, teeters, elastic striders, etc., and balls for various games, such as playground ball, volleyball, basketball and so on will be provided and everything possible done to provide the boys and girls of all ages with games of different kinds. There will be a sand box for the smaller children where they can dig and build castles to their hearts' content. There will be a man whose duty will be to look after the interests of all the boys over nine years of age. He will organize games for the different groups and any boy can rest assured that if he goes to one of these playgrounds there will be some game in which he can join without having to wait, and in which he will undoubtedly enjoy himself.

For the girls and the smaller children there will be a lady whose whole time will be taken up in devising ways and means of playing different games and otherwise occupying the different sunny hours. The games will all be played under the best possible sanitary conditions and in cases where the children do not know the rules the supervisors will teach them so there will be no mistakes.

BRICKLAYERS STRIKE SETTLED; ALL MEN RETURNED TO WORK

Mutual settlement of the trouble between the Bricklayers union and the Builders' exchange has been effected and all bricklayers out on the recent strike are now back at work. W. M. O'Carroll, eighth vice-president of the International union, together with committee from the two locals, Nos. 1 and 4, met the Builders' exchange in conference on Wednesday night. As a result an amicable agreement was reached and the men who were out were ordered to return to their jobs yesterday.

In five years municipal improvements and building construction in Portland, Ore., have cost \$114,888,852.

The Buffalo of the United States and Canada now number about 3,000.

The British Columbia labor commission has recommended a Saturday half holiday for all stores.

PRESIDENT WILSON PROPOSES OPERATE ON BUSINESS MAN

Declares United States is Sick, But Only a Minor Operation Needed.

NEW ANTI-TRUST LAWS WILL PROVIDE A CURE

No Apprehension Necessary: "We Are Friends of Business," He Says.

Washington, June 26.—Under "a new exhibition of freedom" for business given by anti-trust legislation soon to be passed by congress, President Wilson yesterday proclaimed the country the greatest business boom in its history. This was the president's first answer to the opponents of trust legislation at this session of congress and to prophets of evil times, delivered with determined expression and every word emphasized with a clenched fist.

"We know what we are doing," said Mr. Wilson. "We mean to do it under the advice, for we have been fortunate enough to obtain the advice of men who understand the business of the country, and we know that the effect is going to be exactly what the effect of the currency reform was, a sense of relief and security."

The president spoke to a group of Virginia editors in the east room of the White House, but his assurances were intended for the country. News of the failure of the H. B. Claffin company in New York had reached the White House earlier in the day, but the president did not mention the incident.

An Operation Needed.

"I want to suggest this to you: Business has been in a feverish and apprehensive condition in this country for more than ten years; I will not stop to point out the time at which this condition was reached, but it is apprehensive, but during more than ten years business has been the object of sharp criticism in the United States, a criticism growing in volume and growing in particularity; and as a natural consequence, as the volume of criticism has increased business has grown more and more anxious. Business men have acted as some men who fear they will have to undergo an operation, and who are not sure that, when they get on the table, the operation will not be a capital operation. As a matter of fact, as the diagnosis has progressed, it has become more and more evident that no capital operation was necessary, but that the most minor operation was necessary to remove the trouble."

The president said that the trouble was constitutional rather than surgical, affecting habits of life and action which have been harmful. There is nothing more fatal to business than to be kept guessing from month to month and from year to year whether something serious is going to happen to it or not, and what in particular is going to happen to it if anything does. Nothing is more useful, nothing has been declared by business men to be more harmful, than to keep them guessing.

"The guess went out the air was full of interrogation points, for ten years or more. Then came an administration which for the first time had a definite program of constructive correction; not of destructive correction, but of a constructive correction of ad-

mitted evil—a very clear program, disclosed as far as possible in a general program, in its particulars as well as in its general features.

"First, there was the tariff, and business shivered. 'We don't like to go in the water with a rock,' but when the tariff had been passed it was found that the readjustment was possible without any serious disturbance whatever. So that men sold with a sense of relief. Well, we are glad to get that behind us, and it wasn't hard after all."

"Then came the currency reform. You remember with what resistance, with what criticism, with what systematic holding back a large body of members in this country met the proposals of that reform, and you know how, immediately after its passage they recognized its benefit and its beneficence, and how, ever since the passage of that reform, bankers throughout the United States have been congratulating themselves that it was possible to carry out these great reforms upon sensible and solid lines."

"Then we advanced the trust program and again the same dread, the same hesitation, the same urgency that the thing should be postponed. It will be postponed, and it will not be postponed because we are the friends of business."

CIVIC ASSOCIATION ADOPTS CONSTITUTION NOW FULLY ORGANIZED

The gathering and compilation of information as to compensation paid city employees, and public service corporation employees in various cities, the gathering of specific information as to the system of training employees as inaugurated by either municipalities or private enterprises, and the standardization of the Edmonton municipal service are several of the matters which will be undertaken formally by the Civic Service association. Wednesday evening when the constitution of the association was adopted, the reports of committees and officers heard and other business transacted. The Civic Service association has taken a place in the forefront in respect to constitutional provisions. Elections are to be held by preferential ballot, and the initiative, referendum and recall features are inaugurated. The members of the association shall be devoted to business and introduction of any political matter is prohibited. A meeting of the association executive is to be held this evening.

TECH PRODIGY SETS NEW 'MATH' RECORD

Atlanta, June 26.—A new mark in the mathematical department of Georgia Tech was set by T. J. Mitchell, a sophomore, when he completed the study of differential and integral calculus with a grade of 95 out of a possible 100.

This is the best record that ever has been made at the school by any student or professor.

James Dodwell of Eldorado, Kan., has just received a medal for bravery in a civil war battle.

THINK ADOPTION ONE MAKE CAR THE BEST

Property Owners Association Recommend One Kind for All Used by City.

ALSO FOR A CIVIC GARAGE

Ask Commissioners for Full Information Re Up-keep, Cost and How Used.

That it would be more economical if the city made use of one standard make of cars, owned their own garage and employed their own mechanics, is the opinion expressed by the Property Owners association in a communication forwarded to the commissioners.

They also desire that the association be furnished with the information as to how many cars are now owned by the city, excluding the fire department; what makes; who use them; where kept; how many chauffeurs; what salary they receive; cost of repairs and gasoline to date this year; and cost of up-keep.

They further request the same regarding motor cycles now in use by the city. The matter was referred to the deputy-commissioner at the sitting of the commissioners this morning, to furnish the data asked for.

Valencia, last year exported to the United States almost valued at \$21,404.

Prisoners in Cleveland's county jail are now permitted to play handball.

GOES THROUGH MANY ADVENTURES ON THE PEACE RIVER TRAILS

After a series of adventurous experiences in the north, during which he located a fine homestead near Kleshing lake, on the Edson-Grande Prairie trail, A. E. Malmstrom has returned to the city. He rafted down the Peace river and his raft struck a rock, but was not capsized. At Peace River Crossing he reports the ferry had broken loose and was being carried down the river, but was hauled back by steamer. Mr. Malmstrom met seven road gangs fixing some of the worst spots on the trails, which are very bad between Grande and the river. The crops in the Grande Prairie district are very fine, indeed, he says.

BETTER BABES CONTEST—Notice

All contestants who have not up to the present time presented themselves for examination at the Royal Alexandra Hospital are informed that it will be necessary to do so on FRIDAY OR SATURDAY, JUNE 26 OR JUNE 27, of this week.

This applies to all cases where notices have been sent for Monday or Tuesday of next week, and is made necessary by the fact that space at the hospital is being required for patients. We would ask every reader of this advertisement to mention this fact to any of their acquaintances who have babies entered in the contest as we wish to be sure that every contestant has a proper chance to compete in the examination.

ANNOUNCEMENT

It is now over a month since this company offered to the people of Edmonton 5000 shares at the par value of \$10.00, in the United Oils Limited. This number was over subscribed in less than two days, and many prominent business men applied for this stock but could not get it from us because of the limited number allotted for Edmonton subscription (exclusively through our office) and which was so quickly taken up. Since that time we have declined to place the stock of over thirty companies on the market because most of them had either loose holdings, were over capitalized or had irresponsible directors. We therefore preferred not to sell any stock at all until something of merit should present itself. Unity Oils Limited, in our opinion, is undoubtedly the best stock on the market today, and we can confidently recommend it as a safe and sane investment. Read the names of the directors, and note the situation of the lease, located by E. H. Cunningham Craig, and be convinced.

The Directorate of

UNITY OILS

Comprises
the Following
Gentlemen:

MOWBRAY S. BERKELEY, Esq.,
of British Alberta Oils, Ltd.,

tral Oregon Oil & Gas Co.,
Portland, Ore.

E. E. KIRCHNER, President Mis-
sion Land Co., Ltd., Van-
couver.

CAPT. P. J. DALY, D.S.O., Land
Commissioner, Calgary.

H. K. REED, C.A., Southwest De-
velopment Co., Calgary.

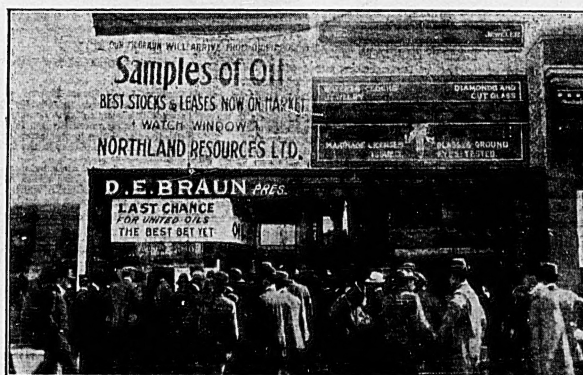

Consulting Geologist—**Mr. E. H.
Cunningham Craig, B.A., F.
G.S.**

The personnel of the board is a
guarantee to the shareholders of
efficient, honorable service, and
the following excerpts from Mr.
Cunningham Craig's report be-
speaks the high class.

Mr. E. H. Cunningham Craig

B.A., F.G.S.

Has selected a choice lease for a number of prominent men who have incorporated Unity Oils, Limited, with a conservative capitalization of \$200,000 shares par value one dollar (\$1.00). A contract for the first well will be let in the course of a few days and will be located on Sec. 18, Township 26, Range 5, W. of the 5th Meridian. Drilling to begin very shortly.

Seeking Admission to buy United Oils on May 21st

Only 80,000 shares will be placed on the market at par value \$1.00 each. Full amount on application—and due to the outside private demand there will be but 20,000 shares available for public subscription in Edmonton and offered for five days only.

**Books Open for Subscription 10 a.m. Saturday next,
June 27th, and Will be Positively Closed
Friday, July 3rd, Midnight**

We believe this issue will be oversubscribed long before Friday night and advise a close examination of Unity Oils' Directorate and Mr. Cunningham Craig's report. This stock is sure to rise in value. Needless to add quick action is essential.

This is One
of the Most
Select Oil
Companies
Placed Upon
This Market

The Motto of Unity Oils, Limited,
is Quality not Quantity. Instead
of acquiring a large area of scat-
tered holdings, which require a
large number of prospecting wells
to hold the property, Unity Oils
acquires 160 acres of land but of
High Class, upon which there can
be Thirty to Forty wells drilled,
thus combining large production
within a compact area.

Excerpts from
Mr. Craig's
Report

"Exceptionally favorable position
for development, being accessible
by rail and wagon road with an
abundant supply of water for
drilling purposes; shows strata to
great advantage; boring begins in
the Bearpaw shales; there is no
faulting than can effect the area;
two distinct prospects of striking
petroleum, perhaps three; forma-
tion that Dingman well appears
to have obtained its production;
all northwest half area may be
productive; thirty to forty wells
may be possible."

BIGGEST FAILURE IN THE HISTORY OF UNITED STATES

H. B. Claffin Company Dry Goods Stores, Fail for Thirty Millions.

ASSETS SAID TO BE OVER FORTY MILLIONS
Banks Pressed for Payment and Demanded Firm's Reorganization.

New York, June 26.—The biggest mercantile failure in the history of the United States was precipitated yesterday when receivers were appointed for the H. B. Claffin Co. of this city. The company, it is estimated, owes more than \$40,000,000, which at the present time it is unable to pay. Its assets are said to be \$140,000,000. John Claffin, head of the concern, and its chief individual stockholder, is the owner of a chain of nearly 30 other dry goods enterprises throughout the country, which are involved in the failure. He owes for several of these named yesterday, and some action, it was said, will be taken in the case of the others. Their business will be continued under receivers' management until their financial matters have been adjusted. From 2,000 to 2,500 banks in all parts of the United States compose the bulk of the creditors. They hold notes receivable the major part of the liabilities. These notes are said to have been issued by the various Claffin stores endorsed by H. B. Claffin and company, and the proceeds used, when discounted, in financing their needs. The United Dry Goods company, a \$10,000,000 corporation, financed several years ago by J. P. Morgan and company, to take over other Claffin interests, is not involved in the failure. Neither is the Associated Merchants' company, owned by the United Dry Goods company, and which in turn owns one-half of the H.B. Claffin company and a number of other large stores, principally in New York.

Mr. Claffin, who was president of both the Dry Goods and Associated Merchants' companies, resigned those positions yesterday, and it is understood that when the H. B. Claffin company is reorganized, its connection with both the former companies will be permanently severed. Cornelius N. Bilson, son of the late New York dry goods merchant of that name, was elected to succeed him.

According to Mr. Claffin the failure was due to the unprecedented shifting of trade centers in New York city, which compelled the concern to rely mainly upon its retail stores in other cities for its profits.

The crash came after vain efforts had been made by Mr. Claffin to induce J. P. Morgan and company and other Wall Street banking interests to loan him money to tide over his embarrassment. These bankers, it was learned, advanced the company several million dollars about two weeks ago, but the hundreds of note-holding banks throughout the country continued to press their claims until it became evident that practically the whole Claffin empire would have to be raised to save the company from failure.

The bankers believed that the receivership and a reorganization of the H. B. Claffin company, which would include its separation from the United Dry Goods company and the Associated Merchants' company, was the wisest course to pursue. At this meeting Mr. Claffin is said to have announced his intention to resign from the two latter concerns.

Immediate steps to protect the interests of the note-holders and the merchandise creditors were taken by the appointment of committees representing each.

The failure yesterday marked the fourth financial crisis of the H. B. Claffin company, since it was first established in this city in 1843. It was the civil war, when southern debtors refused to meet their obligations, again in the panic of 1873, and again in the panic of 1907, when H. B. Claffin and J. P. Morgan and company came to the rescue. From its humble beginning of seventy years ago the concern grew to be the greatest dry goods enterprise in the country, and was the nucleus, together with other enterprises which John Claffin promoted, of the Associated Merchants' company, and subsequently the United Dry Goods company, organized in 1919, with its \$19,000,000 of capital stock. Its commercial notes, it was remarked in Wall Street yesterday, were accepted throughout the country almost as the equivalent of currency, so popular was its credit.

Would Save Krachefko.

Ottawa, June 26.—The department of justice is in receipt of a petition brought in through the House of Commons by John Krachefko, sentenced to hang at Winnipeg on July 9 next, for the murder of Bank Manager Arnold at Pym Coulee.

HAD SUIT CASE FILLED WITH ALL KINDS EXPLOSIVES

Suffragette Arrested at Nottingham for Littering With Intent Felony.

MILITANTS DO NOT DREAM OF A TRUCE
Prince of Wales Takes to Water to Escape Being Held Up By "Women Voters."

London, June 26.—A remarkable incident of the visit of the king and queen to Nottingham was disclosed at a local court Wednesday, when Irene Casey, was brought up on a charge of littering with intent to commit a felony. Shortly before the arrival of the king and queen on Wednesday, Irene Casey was observed examining the grand-pump out of a second-story window of a house in the city. She was carrying a green suitcase. Detectives arrested her and took her to the police station where it was found the suitcase contained, among other things, four quarter pound packages of chlorite and 25 feet of fuse.

The woman behaved violently when the magistrate remanded her and seized the front rail of the dock and clung to it with such determination she had to be wrenched away and forcibly removed to a cell.

The Prince of Wales had a narrow escape from being caught by two suffragettes yesterday.

The prince, who is in camp at Blyth, near Aldershot, had gone with a number of comrades for a swim. No river being near, the young men had to content themselves with a dip in the old Easingstone canal.

The prince, after one plunge, saw two women hurrying along the towpath towards him, one waving a parasol and the other, with what looked like a "vote for women" bannerette. Shouting to his comrades the prince quickly jumped into the canal and put some distance between him and the bank.

The militant suffragettes are determined not to relax their campaign. Mrs. Annie Besant, president of The Theosophical society, author and lecturer on religious subjects, in a recent lecture in London on the suffrage question, made an eloquent appeal to the militants to consent to a truce with the government on condition that the ministers promised to introduce a bill in the next parliament.

Miss Wylie, presiding at a meeting of the Women's Social and Political Union yesterday, declared that the militants would not dream of a truce. Mrs. Besant, she said, had not fought

dared and suffered as the militants had, and she had no right to call a truce.

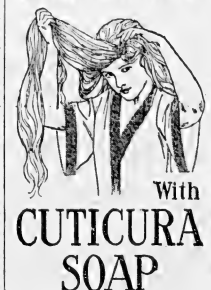

The trial yesterday of the suffragette, Miss Irene Casey, who was arrested at the time of the king's recent visit to Nottingham, has revealed that she was carrying in her dressing bag, a regular arsenal, including four quarter pound boxes of high explosive, detonators, 20 feet of fuse, a bottle of benzine, chisel, pliers and glass-cutter.

Bill Identified at Trial.

Trening, June 26.—William H. Plaster was committed for trial yesterday on a charge of carrying explosives with intent to do injury to property. He is elected to appear before a judge and jury. At the sitting of the police court James S. Mohl, an employee of the Northwest Lumber company, whose safe was blown on June 11, identified a ten dollar bill found on Fisher's person at the time when he was arrested as the night before the robbery.

An international competition for road improving machines will be held next year in Naples.

SAYS DISTRICT HERE BEST FOR MIXED FARMING

Former Resident Loud in His Praises of Land in Edmonton District.

EXCELS ANY SEEN ON PACIFIC COAST
Prairie Needs No Clearing or Irrigation and Is Much Cheaper in Price.

Returning to Alberta after an absence of two years spent in California and the Pacific coast, Joseph Toome, a former resident of this district, is loud in his praises of the quality of farm lands in the vicinity of Edmonton.

"As a country for mixed farming, cattle and hog raising, the land around here is far ahead of that in any other part I have visited," said Mr. Toome to The Capital representative yesterday.

In Fresno county, California, land runs from \$200 to \$500, and as high as \$500 an acre. It is, of course, largely used for raising fruit, but even then the average farmer does not do much better than break even, take year in and year out.

"At Sacramento, where I spent some time, farm land runs about \$400 an acre. They will tell you that they can take off two or three crops in a year, but I found that this is not so. The first crop of alfalfa usually runs about two tons to the acre, but the second does not amount to much. There is only one crop of grain. The principal market for their hay is San Francisco, where the price runs from \$8.00 to \$12.00 a ton."

"At Cottonwood dairy lands run from \$50 to \$400 an acre. Very little of this is good clear land, except in the valleys. At the same time necessary irrigation is called for and is quite an item of additional expense to the farmer."

"I also spent some time in the Chubbuck district, near Vancouver. Here farming land is worth about \$600 an acre unimproved, and it costs considerable to clear it, being under the prairie, which all you have to do is shovel and break it."

"I didn't see anything like our own land here or at all near equal to it, and which we can buy from \$50.00 to \$75.00 an acre."

Mr. Toome, whose family is now at the coast, intends to again take up permanent residence here in the course of a short time.

Montreal's 1913 bank clearings totaled \$2,414,644,424.

RUNAWAY TEAM PIERCES TONGUE THROUGH HORSE

A most unusual and freakish accident occurred at the corner of First and Jasper at 10:15 this morning, when a team hitched to a Woodland Dairy milk wagon became frightened and bolted down the south side of Jasper and crashed into a horse and wagon standing in front of the Seidick hotel. In their mad dash down the street, the tongue of the dairy wagon became unhooked and fell to the ground, bouncing up and down at every jump of the horse and when it crashed into the standing horse and wagon, the tongue pierced its way right through the horse and created a peculiar and painful predicament. The tongue went through a distance of five or six feet, making a hole in the animal which bled profusely. The animal, which belongs to the Hong Lee Laundry will likely have to be shot. The runaway team were unhitched and the wagon pole sawed off and finally pulled out.

Sons of England Excursion.

Members and friends of Lodge Edmonston and Lodge Strathcona are reminded that the postponed trip on the City of Edmonton will take place on Thursday, leaving the government wharf to go up the river. Passengers will land at Laurier park for half an hour. Tickets can be secured from the Sons of England executive.

WAS TROUBLED WITH BOILS AND CARBUNCLES.

There is no more frequent source of blood poisoning than bad blood, for when the blood becomes impure, it is only natural that boils, pimples or some other indication of bad blood should break out of the system.

Boils in themselves are not a dangerous trouble, but still at the same time are very painful, and the only way to get rid of them is to cleanse the blood of the impurities. Cleanse it thoroughly by the use of Burdock Blood Bitters, that old and reliable blood medicine that has been on the market for nearly forty years.

Mr. James Widd, Plaster Rock, N.B., writes:—"I was greatly troubled, a few years ago, with boils and carbuncles, and the doctor told me I was in a bad condition. My appetite failed me, I began to lose strength, and was pretty well run down when one of my friends recommended Burdock Blood Bitters. After using three bottles I began to feel like another man. My troubles soon left me, and to-day I can certainly give Burdock Blood Bitters a high recommendation to my friends."

TEN THOUSAND ARE HOMELESS IN FIRE; \$20,000,000 LOST

Historic City Almost Totally Devastated; Over 1000 Buildings Wiped Out.

REFUGEES FLEE TO PARKS AND ROADS
Schools, Churches and other Places Opened to Homeless for Protection.

Salem, Mass., June 26.—Nearly half of the old city of Salem, rich in history tradition, was devastated yesterday by a fire that caused an estimated loss of \$20,000,000; destroyed 1,500 buildings, including a score of manufacturing establishments and 19,000 of the 45,000 residents homeless. For a time the whole city seemed doomed. Then the firemen concentrated their energies in a single point of defence near the Boston and Maine railroad station. Several buildings in this vicinity were dismantled, and every available line of hose was directed against the approaching flames.

Thousands of the homeless were camped on Salem common with such household goods as they could save piled around them. Long lines of refugees, most of them on foot and others in wagons and carriages and automobiles, crowded the road leading to Beverly, where hundreds spent the night in the parks.

Early in the evening the electric light plant was burned out, throwing the city into darkness.

The high school, police station, state armory, churches and other public buildings were thrown open to the homeless ones, and the city was policed by militia men.

The great destruction was due to poor water pressure.

Two persons were burned to death.

How to Prevent Fires.

Montreal, June 26.—The hundred delegates attending the convention of the Union of Saskatchewan municipalities spent the greater part of yesterday forenoon in an audit tour of the city and an inspection of the industrial concerns. In the afternoon Fire Commissioner McLean delivered a paper on fires in the province and the methods of preventing them.

Twenty-nine per cent of all the girls over 16 years of age in Philadelphia earn their own living.

Thomas A. Edison, though opposed to cigarettes, will smoke a pipe.

New Glenora Snap

Will sell, one, two or three lots in NEW GLENORA, south of Athabasca for \$2,300.00 on terms. Builders get busy. These lots face East and cost owner \$3,200.00 per lot.

ESKIMOS AND BRONKS ONE EACH COMMENT JOHNSON-MORAN BOUT

Secret Phone 1166.

BRONKS CUT-OFF FIRST GAME 12 TO 0, BUT DEFEAT ESKIMOS IN EVENING 7 TO 3

Baltiste Started for Locals in Afternoon But Weakened and Kraft Saved the Day—Crump Through Series of Costly Errors—Chapman Started Well But Let Up Near Final Inning.

The Eskimos took an early lead in the first game of yesterday's double-header, and added by the willfulness of Kraft, who walked nine men, were able to shut out the Bronks 12 to 0. But in the evening game, Crump pitched the Eskimos' new pitcher, and a full-blooded Indian, started on the mound for the locals, but was given the recall after he had walked three in a row in the fourth, and Kraft, who replaced him, put away four more by the strike-out rule and issued free passes to none. Manager Nordyke showed good judgment in pulling the Indian out at the opportune moment.

Were Hits A-Plenty.
Gohlitz doubled and three passes by Kraft gave the Eskimos two runs in the initial inning, and three hits and two more passes gave them another pair in the second. Their next runs in the sixth from a single by Fortier, and two walks, and still another in the seventh, when Williams tripled and Lemieux singled.

Six in the Eighth.
The game was safely won then, but to make matters certain, the Bronks cut together and bunched hits and put an even half dozen across in the eighth and put the Eskimos in bad for the rest of the game. In this inning Fortier hit for three bases to right and Kraft walked three more, and Williams drew a base on balls. The bases were full and Gohlitz was hit by pitcher and Lemieux hit for one, and Nordyke for two bases.

Crump vs. Mosquitoes.
Strick led the Bronks' hitting, with two singles, two hits and home setting one each. Hull was credited with but one strikeout. Baltiste pitched for Kraft four. There were no particular features during the two hours' play, other than Roy Lemieux' beating around the bases on a hit fly to right, after he had been out an hour, and Nordyke getting caught at the plate by about fifteen feet. Crump's team was also noticed very busy sweating mosquitoes in mid-air around center field.

That Evening Game.
The second game went to the Bronks 7 to 3, and was due solely to errors of the home team. There were six of these and they were all costly. Eddie Smith and the late-fortune to execute three of these, and they came one, two, three in a row, and the third when he tossed Kuhn's grounder, was the fatal blow to the Eskimos and scored two runs. Matt was not the only one to break into the error column, but he started the trouble, very to relate.

Chapman Hit Buckles' Offerings.
For the first five innings Chapman held the Bronks to three hits and no runs, while the Eskimos agreed to get one in the sixth. Came the sixth and the blow-up. Reynolds and Vian pouring on the above mentioned error. Again in the sixth, when Chapman showed signs of weakening, Reynolds led Frank singled and Kuhn doubled, accounting for three runs, and in the last inning, three singles by Devereaux, Leons and Lemieux, and the Bronks' manager's steel arms accounted for two more, making the total seven.

Two hits in the eighth, which put men on second and third, gave the locals one run, and it looked like the chance to recover, but Frank came through and fouled out, and all was safe. The Eskimos' last effort in the ninth also looked dangerous, when Nordyke tripled, Fortier drew a pass and Matt singled, but the best they could do was one run, as Chapman manned and Crump fired out.

Frank A Big Hitter.
The batting of Reams and Frank were features of the Bronks, with three singles apiece. The latter also pitched a fine game, striking out five and passing four. The Eskimos' pitcher also got going, but was inclined to loosen up towards the final innings.

REFUSE TO HAVE UMPIRE WHEELER. MARION PITCHES NO-HIT, NO-RUN AGAINST FARGO

But for Close Decision at First Base, Would Have Perfect Game.

Winnipeg, June 26.—Heaver Straley Dougan created baseball history for the Northern league here last night when he shut out the Fargo-Moorhead combination without a hit or a run, and only one visiting player reaching first base, this coming through an error on the part of Dougan himself, when he failed to hold Ventes grounders in the seventh.

This is the first achievement of this kind in the Northern league this year, and only a very close decision by Umpire McDarry stopped the local pitcher from pitching a perfect game. Ventes hit a sharp one back at the pitcher, who only knocked the ball down, but fielded it in time to make a close-play at first, but the umpire ruled that the runner was safe.

The local had little difficulty in finding Gohlitz, and Swain made the longest hit of the season in the fifth, when he cracked the ball for a home run, sending along two runners ahead of him.

WINNIPEG CREW SHOW FAST TIME IN TRIAL RACES
Winnipeg, June 26.—The crew of the Union Boat club of Winnipeg, which is entered for the grand challenge cup in the Henley regatta, July 1 to 4, rowed over the full course last evening, but it was obvious soon after the start that the Americans were not rowing out. Their stroke was held at thirty to the minute, whereas their style warranted a much higher rate if trying for a record. They passed the half-way mark in 3 minutes 31 seconds.

It is interesting to note for the purpose of comparison that the Leander crew, rowing all out, took 3 minutes and 21 seconds to the half-way mark, and the Winnipeg crew 3 minutes and 30 seconds, and Jean College, Oxford, 3 minutes and 18 seconds. All three are grand challenge crews.

Wales vs. Sons of England.
The game between the Welsh and the Sons of England, originally scheduled for tonight, has been postponed until Saturday, June 27, and will be played at the south side grounds when the following players will represent the Welsh: Stockton, Anderson and Griffiths; Nichols, Palmer and E. Jones; Phillips, McCluskey, Higginson, E. Phillips, Roberts, Herve, Markes, and Smith, Stead, Charles. Kick off at 7 o'clock.

Sons of Scotland.
The following team will represent the Sons of Scotland intermediates in their game against the City Dair at the old exhibition grounds on Saturday evening: Smith, Martin, McAnand, Patterson, Smith, Lennie, Guthrie, McPhee, Turnbull, Saunders, Clark.

On Dominion Day the Sons of Scotland are sending a team to Athabasca to compete in the sports at that town.

Invictus 0 8

Stopped at Last.
Indianapolis, June 26.—(Federal)—After winning 14 games in a row, the Indianapolis club was stopped yesterday by Kansas City, the visitors winning, 5 to 2. Ninth inning rallies by each team were feature.

HAL CHASE CAN'T PLAY WITH FEDERALS. JACK JOHNSON NOT THE FIGHTER HE USED TO BE—MORAN HAS CHANGE

Live Comment on Heavyweight Bout for World's Title Which Takes Place Tomorrow in Paris.

(By Prof. Jerry McCarthy)
Physical Instructor, Edmonton Police.

Speaking of the above contest in Paris tomorrow between Frank Moran and Jack Johnson, who is the heavyweight champion of the world, due to my friend Tommy Burns letting himself be led to slaughter in his greed for coin.

Frank Moran had't met the Big Snake he would still be champion and no doubt would be boxing Moran tomorrow, because even Tommy's loss of the crown there has not been one good man appear on the pugilistic horizon who could have given Tommy trouble, unless it would be the late Stanley Ketchel, who never will be forgotten.

Moran is Good Man.
Now as to some of the respective chances of Johnson and Frank Moran, one will have to do some figuring, because Frank is a better man than we think, this because of him not receiving a great deal of publicity, as the papers over here are not overly enthused about the match. Now to get to some of the work Moran has done: He hails from Pittsburg, Irish-American; born March 18, 1887; Height, 6 feet 1 inch; weight, when in condition, about 210.

He began his boxing in 1910 and met about 15 or 16 men of different ability, and among them was Jack Johnson, who he boxed in that year in Pittsburg, a four-round exhibition. He also beat Kid Cohen (colored), Johnson's sparring partner, in one round. He also met John Willis, Huck Fitz, and others well known to followers of the game.

Fought Gunboat Smith.
In 1911 he boxed Al Palmer, Jim Savelle and Fred Drummond. 1912 such men as Tom Cowley, Chas. Wilson, Al Kublick, Tom Kennedy, Tony Ross, Johnson's sparring partner, in one round, and in 1912 fought Gunboat Smith, 20 rounds in San Francisco, Cal., losing.

In 1913 he knocked Al McCulloch, fought no-decision bouts with Saito and Fred Lewis, Luther McCarthy. He also knocked out Jim Logan and Al Palmer in four and seven rounds, showing that he is a really fair man, with only four years of actual ring experience, and if he is in the best of condition, his young and strong, as is Mc. Johnson will have to look to his laurels, because Jack is now 38 years old and has been fighting 18 years.

ARE YOU AWARE OF THE FACT—

THAT Peace River Crossing is going to be the coming city of the Last Great West? All the present indications point to a great future to this wonderful fertile country with Peace River Crossing as the head-quarters and the distributing centre. The surrounding district is also rich in timber, coal, water power, natural gas, oils and minerals, and is only waiting for development. A large amount of capital has already been spent for development purposes. Thousands of first-class settlers and shrewd investors have located in the Peace River district, and 1914 will see many thousands more of eager men who will go and seek their fortunes.

THAT MAIN STREET CENTRE

Is located on the East side of the river, and is absolutely the closest-in property above the Flats. Our property is strictly level and commands an elegant view with perfect drainage. Peace River Crossing will become a great railway centre. The E.D. and B.C. Railway are grading within a few miles of Peace River Crossing and guarantee to be running trains into the Crossing on or before Dec. 31st 1914 and other roads are chartered to go there. Besides numerous railway facilities it has nearly 800 miles of navigable waterways.

IS THE BEST BUY IN PEACE RIVER CROSSING

We have the utmost confidence in our property and firmly know all who invest their money in **Main Street Centre** will reap big returns in a very short time. Peace River Crossing is bound to be built on the high level and our property is the choicest.

Opportunity knocks at your door **Today** and now is the time to buy lots while the prices are right. Investors take notice and act promptly.

Prices from \$200.00 and up per Lot

SAMMY BEER PITCHES 12TH CONSECUTIVE VICTORY 3 TO 0

Quakers Shut-out Robin Hoods and Allowed Them Only Two Hits—Outfielder Million Puts Sensational One-hand Catch.

Edmonton, June 26.—Sammy Beer pitched a two-hit game here yesterday and shut out the Robin Hoods 3 to 0, winning his 12th consecutive victory. Harrah opposed him and was only touched for four safeties. Two errors on the Million line-up were costly. Collins in the first inning with three and two on him was hit on the top of the head. Harley, attempted to sacrifice but both men were safe. Wilson advanced them with a sacrifice and both

J. WILLARD LACKS AGGRESSIVENESS

If He Had Real Fighting Instinct He Would Be Heavy-weight Champion.

Jesse Willard has announced his desire to meet either the winner of the Carpenter-Smith or the Johnson-Murphy bout, in France or England.

It is a safe bet that neither winner will accommodate him.

Why? That's easy. Willard is **POTENTIALLY** the greatest heavyweight in the world. His physical advantages are enormous, with his 6 feet 4 inches of height, vast reach, 240 pounds of lean fighting weight, and his strength and ability to assimilate blows, not to forget for a moment the punch he carries in his right hand.

The only thing Willard has lacked, at times, is aggressiveness. He's too good natured. Even when the punches fly hardest he grins and looks around to see if the crowd is amused by his antics.

In spite of his easy going nature Willard becomes waspish when hurt. Lillard and as soon as the big youngster realized that he was being slammed 19 to a punching bag he turned on Lillard and beat him to a standstill. Slicker Kearns, slammed a fierce swing into Willard's body, drew back ten feet and waited for Willard to crumple up. Increased for an instant Willard reached across that ten foot space and knocked Kearns cold with a single right-hander on the chin.

If big Jess ever becomes really annoyed while in the ring he can beat anybody.

HORSES SPILL ON MOOSE JAW RACING TRACK

Edmonton, June 26.—Cold weather had its effect on both the attendance and the times of the races yesterday, but some good racing was witnessed. A margin of 11 birds, the scores being 224 to 206 for the five men teams. W. A. Moore was high gun with a score of 48 and in his second string made a possible 25. A large turnout is requested for the Saturday shoot of the N.C.G.C. as the club will send representatives to the tournament at Red Deer and Calgary on July 1, 2 and 3. The Calgary shoot is a two-day event. Yesterday's scores follow: Northern Club G. C.—W. A. Michael 48; W. A. Moore, 44; H. J. Crabbs 44; F. L. Keat, 44; G. M. Cowdroy 44. Total for five men, 224. Others who shot, but did not qualify: J. L. Conover, 42; C. J. Kirk, 42; T. J. McMan 38; J. E. Tyson 38; H. H. Hill 38. Great Edmonton C.C.—J. A. Polard 44; C. Stanford 42; D. McAfee 41; Captain Robinson 41; G. Speers 38. Total 206. Others who shot but did not qualify: F. Pollard 37; W. H. Waddell 34; C. Martin 32; R. H. Simpson 32.

Children Cry FOR FLETCHER'S CASTORIA

MAJOR LEAGUE RESULTS

St. Louis, June 26.—(American).—St. Louis pitchers were wild, while their team-mates fielded ruggedly, the home club could not overcome their opponents' lead. Score, 6 to 1.

Chicago, June 26.—(American).—Chicago's triple and Bodie's single in the ninth enabled Chicago to win the sixth straight game yesterday when they defeated Detroit by 4 to 2 in the second game of the series. Demmitt caught and threw home in the ninth held Kavanaugh on third base and prevented the visitors' scoring.

New York, June 26.—(American).—New York and Boston yesterday again broke even in a double-header. New York taking the first game, 3 to 2, and Boston turning the tables in the second, 4 to 3. Warhon pitched the first game for New York and scored his first victory for the season.

Washington, June 26.—(American).—A heavy thunder shower broke up yesterday's game between Philadelphia and Washington at the beginning of the fifth inning. The score at the end of the fourth was Philadelphia 2; Washington, 4. Philadelphia had scored three runs in the fifth without a hit and had a man on second with one out when the game was called.

Pittsburgh, June 26.—(National).—Timely hitting behind good pitching by Conzelmann gave Pittsburgh the second game of the series yesterday over St. Louis, 4 to 1. The visitors bunched three of their four hits in the third inning and got their only run on Beck's triple and Cruise's single. Mowrey, local third baseman, was put off the field in the first for disputing a decision of Umpire Quigley.

FRENCH BIRTH RATE IS STILL SMALLER; DIVORCES INCREASE

Paris, June 26.—In France 5,225 fewer babies were born in 1913 than in 1912, according to official figures made public yesterday. This is the lowest birth rate ever recorded in the country except in 1911, the number of births for every 1000 inhabitants in 1913 being only 114. Births exceeded deaths in 1913 by 41,901, or an average of 10 births in excess of deaths for every 10,000 inhabitants. This compares with an excess of 140,000 for every 10,000 in Germany in 1912; 107,000 in Austria; 107,000 in Italy, and 140,000 in Hungary in 1912. At the same time divorces increased from 14,999 in 1912 to 15,078 in 1913. The Times remarks that the population of Germany increased by about 800,000 in 1912, or about 20 times as much as that of France, which was augmented by only about 42,000.

COMPANY BEGINS TO DRILL FOR OIL THREE MILES FROM REDCLIFF

Redcliff, Alta., June 26.—W. R. Martin, the well-known geologist and well driller, has selected the location for the well of the Redcliff Gas and Oil company. It is located three miles west of town, near the Saskatchewan river. The drilling rig has arrived and will be set up at once. It is estimated that a depth of 2,000 feet will reach the oil, which will require three months' drilling.

The Cypress oil corporation is the latest oil company to enter the field here. They will drill near Cypress hills, about 40 miles south-west of the place, where the indications are good, according to G. A. Reynolds, engineer and oil expert. The officers of the company are: Walter Huckle, president; Frank Bradford, vice-president; and Edward Chudleigh, secretary and treasurer.

PROBABLE SLAYER OF BENTON IS KILLED BY OWN MEN IN BATTLE

El Paso, June 26.—Col. Rodolfo F. Pardo, "the butcher," as he is known throughout northern Mexico, died at the taking of Zacatecas, a victim of the hatred of his own men. His death will probably mean that no one will ever be brought to justice for the killing of William S. Benton, the British rancher, for even constitutionalists admit that Pardo killed Benton. That Pardo met death at Zacatecas was the information contained in a telegram received here from the commander of the famous Scraggins brigade.

H. R. Emmerson III. Ottawa, June 26.—Hon. H. R. Emmerson, formerly minister of railways in the Laurier administration, seriously ill at his home in New Brunswick that his life is despaired of.

MAKE SASKATCHEWAN NAVIGABLE AT COST FIFTEEN MILLIONS.

Ottawa, June 26.—A new means of transporting western grain and coal is planned in the survey of the Saskatchewan river, which is to be completed this fall by engineers of the public works department. They have been engaged in the work for three years, and the idea is to have a five-foot waterway from the Rockies to Winnipeg. This would be sufficient for barge traffic. The cost is roughly estimated at \$15,000,000, the principal items being a series of locks along the river. The total cost would be reduced by valuable water power to be developed along the route.

'GUNNER' IS SURE WINNER-MURPHY

New York. Fighter Thinks Smith Will Whip Carpenter With Ease.

Harlem, Tommory is picking himself up to whip Georges Carpentier with ease. Tommy thinks that the first time the Gunner hits the French champion it will be up to the Parisian present to gather up the pieces of their fallen idol.

"Smith has the hardest punch of any man in the world," declares Tommy. "I assert this regardless of the fact that Smith has been my stablemate and that I may be accused of being influenced in his favor through friendship. The alleged cleverness of Carpentier will be useless against such a terrific hitter as Smith."

"The Gunner can knock the ordinary fighter down with a blow on the shoulder. "One time I was boxing with him in order to help him gain speed. I'll never forget it. He didn't mean to hurt me, but he drove down so hard that he almost flattened my insteps. I'd have been flat-footed had I kept on boxing with him. "Carpenter may be a good man, but when he stops one of those right handers that the Gunner is always slugging at a man's jaw, he'll go down and out just the same as did Arthur Taylor."

To Protect Mining Property. Washington, June 26.—An agreement has been made between the United States and Great Britain to protect mining property in Mexico similar to that made to protect the oil interests.

Dominion Day July 1st, 1914
